

25th September | 5 PM  
MPI Marburg On Site + Online

# SynBio Evening

Come to an engaging event blending biology and engineering.

## Invited speakers from **Tobias Erb's Lab**

Academia focus

### Dr. Andreas M. Küffner

Bottom-up reconstruction of  
minimal pyrenoids

### Dr. Maren Nattermann

Engineering enzymes  
for synthetic formatotrophy

### Dr. Scott Scholz

DynaPore: Building Bioelectronic sensors for  
real-world application

Commercial focus

## Beyond the talks ....

### Expand your knowledge

Discuss on the  
revolutionary field.

### Prost!

Perfect time to grab a drink  
and dive deeper into science.

### Network

Mingle with fellow enthusiasts after  
the talks, either in person or online.

## Register for free – Scan the QR Code

### Refreshments will be provided
