

StPO 2023 L3 Geography – Module Descriptions  
 Non-official English version

Modules in the subject Geography	Compulsory [PF] Compulsory elective [WP]	LP	Qualification goals	Level	Prerequisites for participation	Prerequisites for the allocation of LP
Introduction to Geography Studies for Teachers (L-EinG)	PF	6	The module teaches the basics of scientific work on the basis of geographical questions, i.e. data management, literature work and study programme organisation.	Basic	none	<u>Coursework:</u>  Processing of 6-10 exercises and presentation (15 minutes) or project work (15 pages)  <u>Module examination:</u>  Project work (15 pages) or completion of 6-10 exercises or term paper (10 pages)
Subject specific knowledge climate/economy (L-Klima/WiDi)	PF	6	The module teaches the basic knowledge in the geographical sub-areas of climate geography and economic/service geography. The students receive an overview of the state of scientific state of knowledge and learn fundamental relationships, specific methods and important specialised terminology.	Basic	none	<u>Coursework:</u>  Project work (15 pages) or completion of 6-10 exercises or Literature paper (10 pages)  <u>Module examination:</u>  Written exam (90 minutes)
Geography education I – Introduction (L-EinGD)	PF	6	Students should gain insights into the theories, concepts and questions of geography didactics.	Basic	(L-EinG)	<u>Coursework:</u>  Presentation (30 minutes) Processing of 9-14 exercises with presentations (30 minutes) or portfolio (20 pages)  <u>Module examination:</u>

StPO 2023 L3 Geography – Module Descriptions  
 Non-official English version

						Project work (15 pages) or written exam (90 minutes) or oral examination as group examination (30 minutes)
Geography education II – Advanced (L-VerGD)	PF	6	The students should gain an in-depth understanding of fundamental subject areas, current issues in specialised didactic research as well as didactic theories, concepts and methods.	Advanced	Modules in the total of 36 LP: (L-EinG); (L-Klima/WiDi); one module of the compulsory elective programme <i>Methods of Geography</i> ; (L-EinGD); Modules totalling 12 LP from the compulsory elective areas <i>Basic competences and Methods of Geography</i> .	<u>Coursework:</u>  Processing of 3-6 exercises or Project work (15 pages) or presentation (60 minutes)  <u>Module examination:</u>  Project presentation (30 -60 minutes) or Project paper (15 pages) or oral examination as group examination (30 minutes)
Geography education III – Specialization (L-SpezGD)	PF	6	Students should be able to develop, implement and reflect on special teaching/learning situations.	Advanced	Modules in the total of 36 LP: (L-EinG); (L-Klima/WiDi); one module of the compulsory elective programme <i>Methods of Geography</i> ; (L-EinGD);	<u>Coursework:</u>  Project work (15 pages) or completion of 3-6 exercises with presentation (30 minutes) or presentation  <u>Module examination:</u>  Portfolio (20 pages) or Project work (15 pages) or project presentation (30 - 60 minutes)

StPO 2023 L3 Geography – Module Descriptions  
 Non-official English version

					Modules totalling 12 LP from the compulsory elective areas <i>Basic competences</i> and <i>Methods of Geography</i> .	
ProfiWerk Geography	PF	6	Students develop an exemplary understanding of the subject on the basis of selected subject-specific and methodological guiding principles and apply this understanding within the framework of a didactically guided modelling process of teaching-related tasks. On the basis of central questions of the subject, students reflect on the tension between specialised science and school subject, reflected knowledge and everyday knowledge.	Advanced	At least 24 credit points from completed modules, including: (L-EinG); (L-Klima/WiDi); (L-EinGD)	<u>Coursework:</u>  Completion of 2 to 6 exercises with presentation (30 minutes) or project work (15 pages)  <u>Module examination:</u>  Project work (15 pages) or project presentation (30 - 60 minutes) or portfolio (20 pages)
PraxisLab Geography	PF	6	The module builds on the associated module ProfiWerk Erdkunde and ProfiPraxis and is completed by the parallel modules PraxisLab EGL and PraxisLab of the other subject. Using selected subject-specific and methodological basic concepts, students should transfer their exemplary understanding of the subject system via a subject-didactic modelling process of tasks into the staging of lessons and apply the knowledge they have acquired, the observations they have made	Praxis	(PraxisStart); (ProfiWerk Erdkunde); Simultaneous participation in the PraxisLab modules of the other subject and PraxisLab EGL.	<u>Coursework:</u>  Carrying out at least one teaching experiment in the school internship and working on a task related to subject concepts in the block seminar.  <u>Module examination:</u>  Internship report, portfolio or project work (8-15 pages)

		and systematise the knowledge they have acquired, the observations they have made and the experience they have gained in the context of teacher professionalisation in a broad and differentiated way.

**Import module list:**

The following modules from the Department of Geography, FB 19 can be used for the compulsory elective area of *Basic Competence* (compulsory elective modules; 12 LP):

Modules from B.Sc. Geography in the currently valid version:

Basic competence: Population geography	6 LP
Basic competence: Urban geography	6 LP
Basic competence: Geographies of peripheral areas	6 LP
Basic competence: Hydrogeography	6 LP
Basic competence: Geomorphology	6 LP
Basic competence: Soil geography	6 LP
Basic competence: Biogeography	6 LP
Basic competence: Man and environment	6 LP
Basic competence: Spatial planning	6 LP

The following modules from the Department of Geography, FB 19 can be used for the compulsory elective area Specialisation in *Specialised Studies* (compulsory elective modules; 12 LP)

Modules from B. Sc. Geography in the currently valid version:

Basic competence: People and the environment	6 LP
Basic competence: Population geography	6 LP
Basic competence: Urban geography	6 LP
Basic competence: Geographies of peripheral areas	6 LP
Basic competence: Hydrogeography	6 LP

StPO 2023 L3 Geography – Module Descriptions

Non-official English version

Basic competence: Geomorphology	6 LP
Basic competence: Soil geography	6 LP
Basic competence: Biogeography	6 LP
Methods of Geography III	6 LP
Project Human Geography I	6 LP
Project Physical Geography I	6 LP
Project Man and Environment I	6 LP

The following modules from the Department of Geography, FB 19 can be used for the compulsory *Field Placement* (compulsory module 12 LP):

Field Placement	12 LP
-----------------	-------

The following modules from the Department of Geography, FB 19 can be used for the compulsory elective area *Methods of Geography* (compulsory elective modules; 12 LP):

Methods of Geography I	6 LP
Methods of Geography II	6 LP
