

## Short application questionnaire

**Denomination:**

The data will be deleted after the proceedings are concluded. Please provide short and concise answers, as you would expect in a comparative tabular compilation.

## General

Last name, first name:

Academic title:

Current position (e.g., group leader) and institution:

*This data field is limited to 300 characters*

Salary bracket (Besoldungsgruppe/Gehaltsstufe) if a public employee (öffentlicher Dienst):

Tenured or duration of employment contract:

Tenured	Employment contract (start/end dates)
---------	--

If applicable, accepted/declined offer of a professorship (where and when):

*This data field is limited to 300 characters*

If applicable, current offer of a professorship:

*This data field is limited to 300 characters*

## Academic education (start and end dates, institute, degree earned, subject area) and awards

Diplom/MSc:

Doctoral studies:

Habilitation:

If no Habilitation, then university teaching credentials (Venia legendi) in subject area (also provide explanation of Habilitation-equivalent achievements):

*This data field is limited to 300 characters*

Scholarships and awards:

*This data field is limited to 300 characters*

Habilitation:

## Teaching (please attach any teaching evaluations conducted at your institute and qualified certificates)

University courses taught:

*This data field is limited to 300 characters*

Other teaching experience in the past 3 years, if not full time at a university:

*This data field is limited to 300 characters*

Teaching awards & certificates:

*This data field is limited to 300 characters*

Mentored theses (numbers):

Bachelor

Master

State Examination

Diploma

Mentored doctoral dissertations (numbers):

## Publications and invited talks (numbers in each case)

Journal and book chapter publications (only those refereed):

Journal articles

Book chapters

List of up to ten most important publications (Authors, Titel, Journal/Book, Year):

*This data field is limited to 1000 characters*

## Research

Extended research stays abroad:

*This data field is limited to 300 characters*

Short description of current research project (key words):

*This data field is limited to 300 characters*

## Management experience and procurement of external funding

Responsibilities/administration experience

Size of current research group (numbers)

Post-docs

Doctoral students

Diplom/MSc students

BSc students

Technicians

EU

DFG

Procured external funding of past 5 years  
(monetary funding in € and funding period)

BMBF

Industry

Other

## Request for information on animal husbandry capacity needs

1. Does the anticipated professorship require animal husbandry capacity? (If yes, please specify further under item 2.)

yes

no

2. Specific information

Animal species required:

Planned number of animals per year (in cage capacity, for aquatics number of aquariums)

Planned number of genetically altered lines?

Will genetically altered lines with a harmful phenotype be kept? (The EU Directive 2010/63/EU and the German Animal Welfare Act regulate the handling of animals in an experiment. This includes the breeding of animals if it is to be expected that the offspring will experience pain, suffering or injuries. If stress is to be presumed in the offspring, e. g. because the animals develop tumors, an authorisation is required to work with these animal lines. Such lines are classified as genetically altered lines with a harmful phenotype.)

Is a specific biological safety level necessary?                      yes                      no

If yes, which one?

Is equipment needed?

MRI

Other, which?

Irradiation

SPECT-CT / CT

Ultrasound

Bioluminescence Imaging

Equipment Behavior

Is space needed for behavioral experiments?

yes

no

Special requests of the researcher?

What type of housing will the animals be kept in?
