Seminar in Empirical Finance (M.Sc.)

## Dear Germans, how are you doing financially? Insights from the Panel on Household Finances

Summer term 2025

### Scope

In this empirical seminar, you will gather data-driven evidence on the financial situation of households in Germany. Using the Panel on Household Finances, a large-scale survey which is administered by the Deutsche Bundesbank and representative of the German population, you will, e.g., explore novel determinants of savings and investment behavior, investigate the use of consumer credit and state-subsidized pension plans, and analyze why some household balances simultaneously feature low-interest savings and high-interest debt.

Upon successful completion of this seminar, you will have acquired a number of valuable competencies. You will be able to research the literature, structure the collected information efficiently, and apply this knowledge to a specific problem. Moreover, you will have gathered hands-on experience in the handling, describing, and analyzing of a real-world dataset. While this course provides you with an optimal preparation for your empirical Master's thesis, its take-aways do continue to be relevant beyond university: knowing how to translate data into information is a much sought-after skillset for a wide range of job profiles in the finance sector and elsewhere. Last but not least, you will hone your presentation and discussion skills when sharing the results of your empirical analysis with your fellow students.

Most importantly, however, you will feel the sensation of working on something original – none of the research questions raised in this seminar has been addressed before and it is you who will first come up with well-researched answers!

## Research projects

Research projects will deal with the financial behavior of private households in Germany. The list of relevant topics will be communicated after you have been accepted for the seminar.

## Application and topic assignment

Please apply for the course by handing in a short CV and your Transcript of Records to [behavioralfinance@wiwi.uni-marburg.de](mailto:behavioralfinance@wiwi.uni-marburg.de). Make sure to hand it in by no later than April 20<sup>th</sup>, 2025.

After receiving an acceptance notification, you will receive a list of topics. We will ask you to indicate your topic preferences. To do so, please use the application form at the end of this document and name three topic preferences. We do our best to accommodate your topic preferences; however, indicating topic preferences does not create a claim on a specific topic. Please send the completed application form to [behavioralfinance@wiwi.uni-marburg.de](mailto:behavioralfinance@wiwi.uni-marburg.de) by no later than May 4<sup>th</sup>, 2025.

## Course requirements and grading scheme
