

Please provide short and concise answers (only if applicable), as you would expect in a comparative tabular compilation.
The data will be deleted after the proceedings are concluded.

General	
Last name, first name:	
Academic title:	<div style="display: flex; justify-content: space-around; font-weight: bold;"> Dr. Ph.D. PD/Lecturer Assistant Professor </div>
	Other, please specify:
Current position (e.g., group leader, lecturer):	
Current institution:	
Duration of current employment contract:	<div style="display: flex; justify-content: space-between;"> Start: End: </div>
If applicable, accepted/declined offer of a professorship (where and when):	
If applicable, current offer of a professorship:	
Academic education (start and end dates, institute, degree earned, subject area) and awards	
Diploma/MSc:	
Doctoral studies (with date of the last oral examination):	

If applicable, Habilitation:	
If applicable, scholarships and awards:	
Teaching (please attach any teaching evaluations conducted at your institute and qualified certificates)	
University courses taught:	
If applicable, university teaching credentials:	
If not full time at a university: teaching experience in the past 3 years:	
If applicable, teaching awards & certificates:	
Mentored theses (numbers):	Bachelor Master State Examination Diploma
If applicable, mentored doctoral thesis (number):	
Research and Publications	
Short description of your current research projects (key words):	
Where do you see possible links between your research work and research groups in other departments at Marburg University?	

5 most relevant publications with regard to the announcement :					
Extended research stays abroad (duration and institutions):					
If applicable, invited research talks (date, place, title):					
Management experience and procurement of external funding					
Responsibilities/administration experience:					
Size of current research group (numbers):	Post-docs	Doctoral students	Diploma/ MSc students	BSc students	Technicians
Procured external funding of past 4 years. Please name: funding source, monetary funding in € and funding period:					

Request for information on animal husbandry capacity needs

1. Does the anticipated professorship require animal husbandry capacity? (If yes, please specify further under item 2)

yes no

2. Specific information

Animal species required:

Planned number of animals per year (in cage capacity, for aquatics number of aquariums):

Planned number of genetically altered lines?

Will genetically altered lines with a harmful phenotype be kept? (The EU Directive 2010/63/EU and the German Animal Welfare Act regulate the handling of animals in an experiment. This includes the breeding of animals if it is to be expected that the offspring will experience pain, suffering or injuries. If stress is to be presumed in the offspring, e.g. because the animals develop tumors, an authorisation is required to work with these animal lines. Such lines are classified as genetically altered lines with a harmful phenotype.)

Is a specific biological safety level necessary? yes no

If yes, which one?

Is equipment needed?

MRI SPECT-CT / CT Ultrasound Bioluminescence Imaging Irradiation Equipment Behavior

Other (which?)

Is space needed for behavioral experiments?

yes no

Special requests of the researcher?

What type of housing will the animals be kept in?
